Sensational Trading in Wheat, Dealings Being Marked by Much Excitement.

The Closing, However, was at Figures a Trifle Lower than Those of Monday-Corn Strong and Higher-Provisions Quite Dull

MONEY, BONDS AND STOCKS.

Increased Activity and Strength at New York, All Shares Being Higher. NEW YORK, Sept. 4.-Money on call was ersy at 11 24 per cent, the last loan being made at 31, closing offered at 2.

Prime mercantile paper, 4 26 per cent. Sterling exchange was dull but steady at \$4.842 for sixty-day bills and \$4.88 for demand. The total sales of stocks to-day were 307,546 shares, including the following: Delaware, Lackawanna & Western, 25,150; Erie, 5,800; Hocking Valley, 3,440; Lake Shore, 7,646; Louisville & Nashville, 5,513; Missouri Pacific, 9,000; Northwestern, 6,047; New Jersey Central, 5,650; Norfolk & Western preterred, 4,488; Northern Pacific, 5,840; Northern Pacific preferred, 16,-397; Oregon Transcontinental, 24,025; Peoris, Decatur & Evansville, 3,655; Reading, 52,200; Richmond & West Point, 11,825; St. Paul, 16,-500; Texas Pacific, 10,540; Union Pacific, 10,880;

Western Union, 15,280. The stock market to-day was broader, more active and stronger than it has been for some weeks, and, though the taking of profits in the last hour knocked prices off from the best figures, the result of the day's trading is to leave most of the stocks traded in materially higher than last week. The quotations from London this morning came very much higher than our Saturday's closing figures, and, accompanied by a marked demand from the foreigners, they had the effect of opening this market from to 2 per cent higher than Saturday's final quotations. There seemed to be a better attendance at the board, many of the brokers who have been absent for the heated term being present to swell the volume of trading, and, as their proclivities were invariably bullish, the market became buoyant. The colliers and the Villard stocks early took the lead, but the Gould stocks, Grangers and trunk-line shares afterward became prominent, and the improvement rapidly spread to the entire list. There was very little news to affect values, though the reports received from Chicago, if anything, were calculated to take the edge off the rise, but they had little or no effect. The coal stocks, however, were still helped by the very satisfactory condition of the coal trade, and Reading and Jersey Central were affected by rumors of an arrangement with the Baltimore & Ohio for a through line to New York. The extent of the advance rendered the temptation to take profits toe much for many of the traders, and in the last hour there was free selling for the "long" account, which, with the little flurry in money when rates were bid up to 4 per cent. from 1; caused prices to recede from the best figures to 1 per cent. The gains at the open-ing were increased in the first hour from to to per cent. on very heavy trading, which, however, was decreased toward noon to duliness at times. The firm to strong tone of the market still remained, and after 12 o'clock there was more decided strength, with a marked increase in activity. Several new favorites came to the front, and by 2 P. M. the highest figures were reached, many stocks being at their highest point for years. The last hour was quieter, with less demand for stocks and more pressure to sell, and the market finally closed rather heavy at the figures. The active list is invariably higher this evening, and Missouri Pacific rose 12; Reading, 11; Lackawanns and C., C., C & L., 11; Peoria, Decatur & Evansville, 11; Delaware & Hudson, 1, and the others fraction

The railroad bond market sympathized with the share list in point of activity and strength and almost everything on the list is materially higher this evening. The total sales were \$1, 424,000, but the Reading issues were very active the fours furnishing \$125,000, the firsts \$137,000 the seconds \$123,000, and the thirds \$127,000, while Western New York & [Pennsylvanis firsts contributed \$125,000 to the day's total. The principal advance was St. Paul consols, 1 1254. International seconds, 24 to 704: the K. T. issues were the weak spot in the market, and the fives and sevens are lower this evening.

Government bonds were dull and steady.

Lard-Spot Western higher on searcity, quoted at 10.15c; options higher, closing strong; September, 9.98 @ 10.06c, closing at 10.06c; October, 9.90 2 10c, closing at 10c; November, 9.20 29 26c, closing at 9.26 29.28c; December, 8.65 28.70, closing at 8.70c. Stocks of lard, 9.053 tierces.

Butter firm and in good demand; Western dairy, 12 2 15c; Western creamery, 14:224c. Cheese firm and quiet; Western, 71 @8c.

CHICAGO, Sept. 4 .- This was a day of sensational trading in wheat. The range was wide, but no new ground was covered. Scalpers profited by the action of the market, but the smaller conservative traders were squeezed out by the demoralizing actions of the manipulators. To begin with, there was very little fresh news. The weather on the other side was improved, but this appeared to ease the foreign markets but little, and consequently encouraged the "beare" here and elsewhere very little. The crowd seemed ready to sell "long" wheat, and lots of it, on short notice, but the "short" sellers were scarce. Whatever reports came from the Northwest were pretty well divided. The visible supply figures, showing an increase of over 2,000,000 bushels for the week, caused to reaction about noon. The opening price of December was to lower, at 95c, and realizing sales put the price to 941 2.94 c, from which a brisk advance took it to 95%, or ic under the outside point touched at the late session on Monday, when the price eased a fraction to 95%. Bloom sold Hutchinson 1,000,000 bushels at one time, and called margins on the old gentlemen, Mr. Bloom himself quickly putting up \$250,000 in securities. The deal caused considerable commotion. The market then eased to 94 c. During the closing hour there was a second bulge, and December went to 95%c; May sold between .98%c and \$1. Wheat closed at 1 P. M. %c under last night, at 95%c for December. Other futures closed: September, 944c; October, 944c; May. 994c. There was a good feeling in corn and prices ruled higher. But for the unusual attention given wheat there would have been big business in the corn pit, and very likely still better prices. The early strength was caused in part by the cooler weather in the Northwest October sold at 44 to open, up to 45c. back to 41% @441c, and, after another bulge to 441c. closed at 1 o'clock at 445c. Oats were weak in the early trading, owing to a large gain in the visible supply, and declined ic. but recovered and closed steady. Provisions fluctuated within a narrow range, and the market was productive of little interest. Opening figures were slightly lower for pork and ribs, while lard started in at a small advance over last night. October did not get below \$14 40, closing at 1 o'clock at \$14 421, or 71c lower than last night. Lard held up pretty well and closed .05 2.10c higher than yesterday afternoon, October resting at 9.85c. Ribs closed .02 clower on near futures, October resting at 8.57 c at 1 P. M. During the afternoon session wheat was moderately active and weak, December closing 30 to lower than at 1 o'clock. The trading in corn was light at unchanged prices. Oats remained quiet and steady. Pork was easier, declining 5c from the 1 o'clock closing. Lard was steady and without quotable change. Short ribs were quiet and unchanged for September and Octo-ber: January was .02te lower. The leading

INDIANAPOLIS MARKETS.

Trade More Active To-Day-Collections Very

Satisfactory-Prices Firm. INDIANAPOLIS, Sept. 4. In most departments to-day trade was more active than on Monday. The bills falling due on the 1st of the month are being met with commendable promptness, and the situation as a whole is favorable. Dry goods men report a number of good buyers as having been in to-day and mail orders were numerous. Dry goods merchants are buying more freely, as it becomes apparent that higher prices are likely to rule in the near future than now, so reduced are stocks in the manufacturing centers. Provisions rule steady and a fair trade in jobbing way is in progress. Stocks are lower than at this time last year. Hide men are doing a good deal of business, but on small margins. The firm tone to the wool market continues and the better prices are bringing out wool which has been held back. Millers report an improving demand for flour and indications are that in a few weeks prices which will give them an opportunity to make a little money will rule. The most noticeable increase in demand is for the export trade. Sugars, coffees and teas are all moving out quite freely at firm prices. The produce markets are active. Peaches and pears are not coming in quite so freely, as a consequence the prices are a shade stronger. Apples are in large supply and cheap. Melons of all kinds are a drug on the market, the buyers in most cases can name the price. The seed market is very active at firm prices. In other markets there is nothing calling for special mention.

There was a better attendance on 'Change today and bidding was more spirited. The Indianapolis Market Report says in commenting on the local situation: "The wheat receipts posted for the past two days were 77 cars, against 43 cars for preceding period. Market is strong and demand good; offerings fair. No. 2 red salable at 921 20931c, with some samples bringing as high as 94c. No. 3 red selling at 86 @ 90c, according to quality; rejected brings from 76 a 82e for poor to good sample; choice selling at 84 @86c. The corn receipts posted for the past two days were 26 cars, against 19 cars for preceding period. Market is weaker and lower under free offerings. No. 2 white salable at 43 244 c; choice colored No. 3 white at le discount; poor to average colored brings no premium over mixed; No. 2 mixed offered at 42½c, with no bid. The oats receipts posted for the past two days were 31 cars, against 27 cars for preceding period. Market is weaker, although there is a good demand for graded oats at quotations. No. 2 white salable at 28c; No. 2 mixed at 24 @241c; rejected is selling at 21 @3c discount. The bran market is dull at \$11.50 @ 12.00. No. 1 timothy hay in demand at \$12.75 @ 13.00; holders asking \$13.50. Track bids to-day ruled as follows:

Wheat-No. 2 Red..... Rejected.... Corn-No. 2 white..... No. 3 white...... No. 2 yellow.... No. 3 yellow...... No. 2 mixed..... White ear..... Oats-No. 3 white..... No. 2 mixed....

FIELD SEEDS

Wholesale and retail at C. F. HUNTINGTON & CO.'S, successors to Huntington & Hoss, 78 and 80 E. Mar-ket st., Indianapolis. Samples and prices on application.

Feeding is gradually being done on a scientific plan. It has heretofore been the rule to make an animal fat and then send it to market. It is now known that feeding can be so conducted as to secure a large proportion of lean as well as fat, and the animal will gain as rapidly in weight as when feeding for fat. The new system is, therefore, better, for it improves the quality and secures a higher price for the product, while the manure from animals fed for lean is more valuable than that from very fat

AYER'S Sareaparilla will cure your catarrh and remove that sickening odor of the breath.
